עיוני תפילה By: R' Yossi Phillip	לְמַעַן לֹא נִיגַע לָרִיק... וְנִזְכֶּה... לְחַיֵּי הָעוֹלָם הַבָּא- So that we do not struggle in vain… and merit life in the World to Come. A wealthy man wanted to build a mansion for himself. He commissioned an architect to draw up plans, with his specifications. He wanted both a very large entrance and a large dining area. However, the property size could not sustain a house that would have both a large hallway and a large dining area. The man would have to make up his mind as to which was more important to him. The *Chafetz Chaim zt"l*, applied this analogy to explain *Chazal* (אבות ד׳ כ״א) who compares this world to a hallway before the real world, *Olam Habba*. One who builds a large hallway based on materialism will understandably have limited space in *Olam Habba*. We daven that our lives revolve around – and are filled with –*Torah* and *Mitzvos* so that we will not work in vain and that we merit a large portion in *Olam Habba*.
